FEEDBACK FROM PREVIOUS START-UPS

"Exhibiting at the CTI Symposium has brought us a lot of visibility with OEMs and Tier 1s. Countless great conversations with engineering leadership and SMEs have made this a very valuable event for us, and we have already marked our calendars for next year."

Johannes K Becker | Account Executive @ dive solutions GmbH

"Participating in the CTI Symposium as a startup provided a valuable opportunity to engage directly with technology leaders and decision-makers across the industry and establish meaningful channels for open dialogue. In an industry where innovation is critical, forums like these play a vital role in connecting agile startups with established companies, fostering collaborations that can bring impactful technologies to market. We're looking forward to participating again in the near future."

Jonathan Dooley | Product Manager @ eLeapPower

"Joining the CTI Symposium has been a game changer in our Start Up journey. It has never been easier to meet the right people from the electric drive train community and directly address our target audience. Sharing innovation and revolutionary ideas works best when surrounded by like minded people and companies, which makes CTI invaluable for our current and future success."

Maximilian Güttinger | CEO & Co-Founder @ Emil Motors GmbH

Become part of something big and help shape the future of mobility!
